

K-LOVE has been a very important source of hope and inspiration to myself, my two sons, and my daughter. The music and messages provide encouragement especially for my teenagers, when life can seem so difficult. I would not want to lose this programming if K-LOVE were to be displaced by an LPFM broadcaster with different programming. I think KLOVE's positive messages are important for our entire community, especially teenagers. I suspect that KLOVE could be instrumental not only to lifting depression but perhaps even to preventing teen suicides in our community. Please let us keep KLOVE.
